Yes. He is in the database. E2 could consider him for the SSFL, if he were interested.

Terri - If you can tell me.....can you let me know if your TA database includes someone by the name of Peter Strauss? He is a TAG TA on a couple R9 sites and I worked with him in the past. I was just curious if he would be available under TASC at SSFL.

Craig

Subject: SSFL meeting

Hi Luis,

Do you want any follow-up action from TASC on the SSFL meeting? I think it went very well considering the conflicting interests of the different groups. I like the idea of offering TASC services on a case by case basis. Perhaps the follow-up to the groups should be an offer that if any established group interested in the SSFL site makes a request for TASC services, the request will be considered by EPA. Furthermore, if TASC services are provided, all work products will be available to the public. That might not satisfy Dan Hirsch, but it seems fair to give assistance to a legitimate group that requests assistance.

Thanks.

Terrie
